

Esame scritto di ingegneria del software e progettazione web

Pierpaolo Spaziani - Matricola 0243651

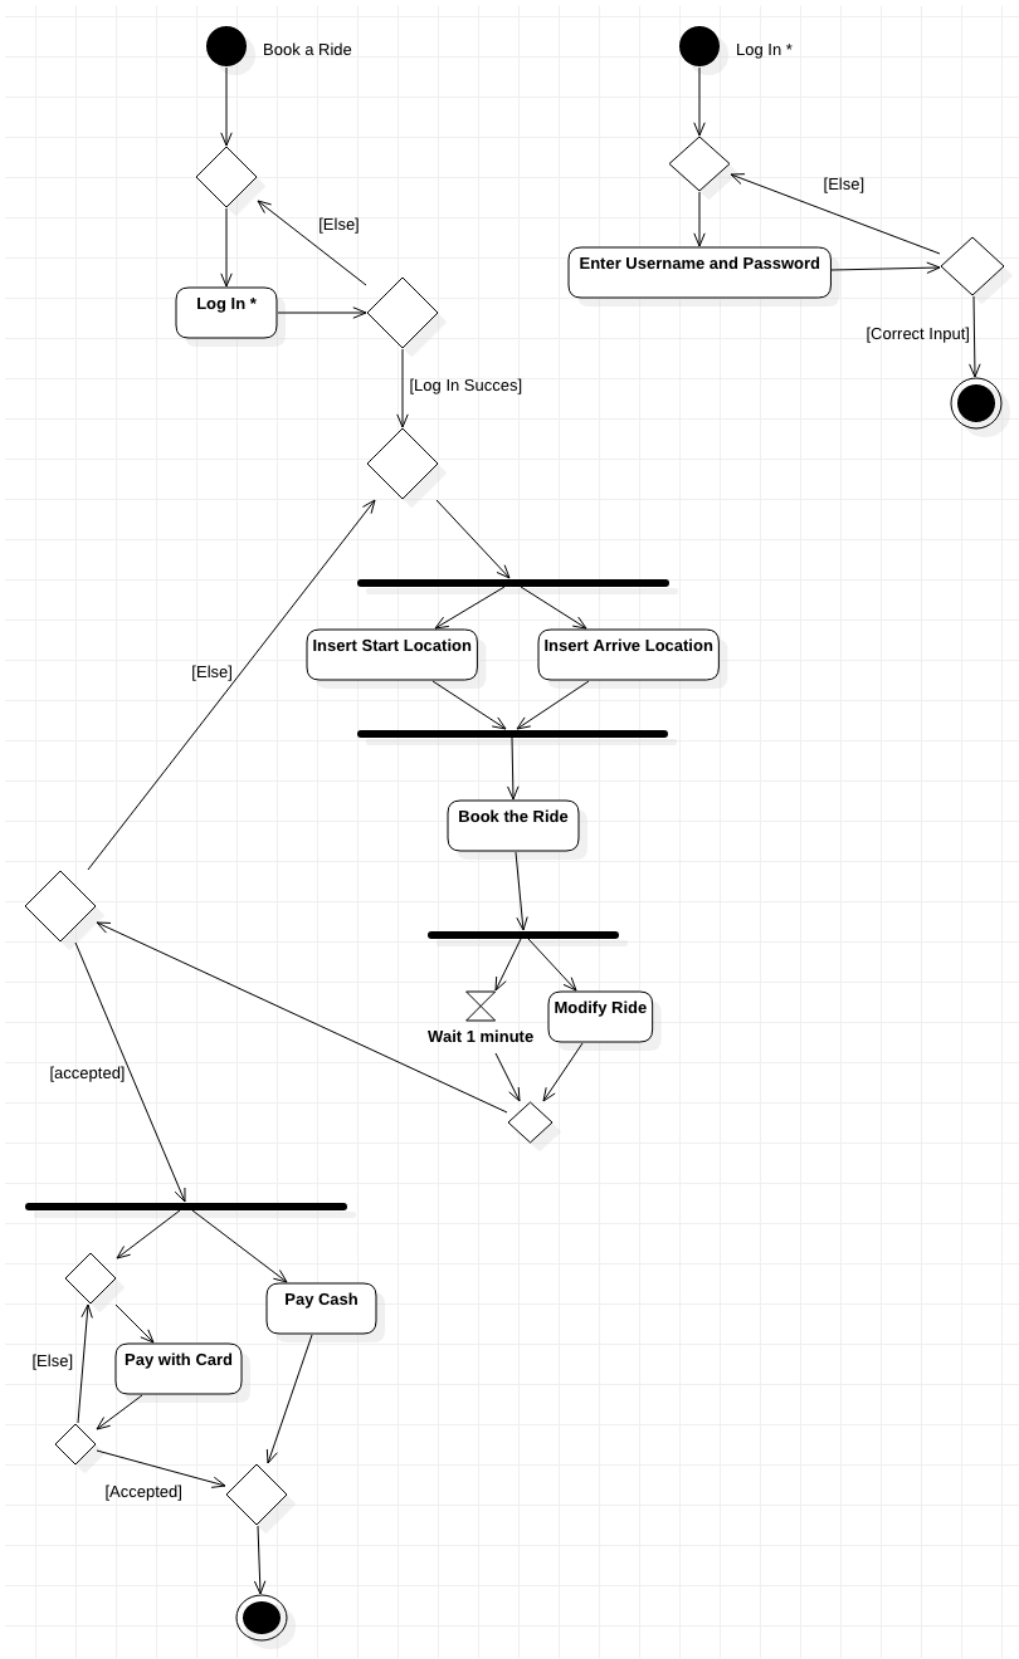

1. 3 FR

- The system shall provide a page to book a ride
- The system shall notify the user that the rider is in a range of 150 meters with a banner
- The system shall provide a payment service by registered cards

2. UC Diagram

3. Activity Diagram

4. Regression

To prevent the lack of riders in high demand situations, the search area range on the map as been increased, but now is not possible to select riders on the edge because the edge of the area is outside the phone screen.
